## Teachers Given \$300 Salary Boost Across Board

### Merchants Accept Council's Offer To Burn More Window Light At Reduced Rate

M. H. O. Reports Mild Outbreak Of Chickenpox And Influenza During October; Some Citizens Asked To Secure More Ash Containers.

Regular meeting of council was held on Tuesday evening. Present Mayor Abousayf and Councillor Dutil, Jenkins, J. Ramsay, Wilson and Wood.

Medical Health Officer submitted his October report and revealed that a mild epidemic of Chickenpox and Influenza had prevailed. There were also two cases of V. D.

Sports' Association asked council to take steps to have membership fees deducted from all its employees. Council had been unaware that any of its employees were not members and immediately instructed secretary to contact all employees and secure permission to deduct their fees.

Model Bakery was recommended for its provincial business license.

Holyk's made application for council's approval and recommendation to Edmonton to have radio sales included in its general business license. Following some discussion council agreed to recommend this to Edmonton.

C.P.R. is seeking from the Board of Transport permission not to fence a portion of its track as it passes through town. It is claimed that several mine paths cut across the track and fencing appears unnecessary. Council was asked to support the Company in its claim. The letter was given to Solicitor Bannan for study and action.

Fire Chief Wm. Antle reported on the fire at International tipple a few weeks ago. Fire fighting costs amounting to slightly better than \$20 will be submitted to the company. Fire Chief asked and was granted permission to purchase 500 feet of 1" fire hose.

On Nov. 23 smoke was seen billowing from the basement of the Celli Block. The brigade responded and found that a motor which operates the ice box in The Friendly Store had burned out causing much smoke in both basements. Damage to the motor was estimated at \$250 and it was stated that only luck prevented the building from catching fire.

New recruits have been secured for the fire brigade and they are practicing steadily.

A letter was received from P. A. Dickieson, Alberta director of the Southern Trans-Canada Highway, asking council to submit a brief in support of the highway and have it in the hands of Lethbridge's mayor J. A. Jardine as quickly as possible. A Dominion-Provincial conference regarding a Trans-Canada Highway is scheduled for December 14 at Ottawa.

Council and McGillivray Creek officials made a personal inspection of the upper reaches of Nez Perce Creek at a point where council hopes to seal off the bed and thus permit water to pass over it instead of letting the water disappear into the bowls of the earth and presumably in-

### REBEKAHS AND EASTERN STAR HELP PREPARE FOR HOSPITAL'S OPENING

Mrs. Florence Cameron, R.N. matron of the Municipal Hospital, reveals that two other Coleman organizations, the Minerva Chapter of the Eastern Star and the Victoria Rebekah Lodge have offered their help in helping new sheeting and other linen items required.

Their kind offers have been accepted and work is being allotted them.

It is understood that some organizations in Blairmore are also willing and anxious to help with the linen and thus a heavy load is going to be made infinitely lighter.

### Pass Milk Consumption Decreased 19.1 Per Cent. During Past Year; Increased Price Said Responsible

Lethbridge Milk Inspector's Office Reveals That A Decrease In Milk Consumption Is Evident In Three Southern Alberta Areas.

Statistics listed at the milk inspector's office, department of agriculture, in the city, bear out a recent statement of Dr. L. B. Pett, chief of the nutrition division of the National Health Department, Ottawa, that milk consumption in most parts of Canada is declining.

A decline has been evident throughout southern Alberta since the rise in price of milk to householders became effective following the lifting of government subsidies last January.

Prices of milk in Lethbridge in October, 1947, were 14 cents a quart compared to 17 cents in the same month in 1948. In Medicine Hat prices were similar and in the Crows Nest Pass they were 15 cents a quart in Oct. 1947, as compared to 21 cents a quart in October, 1948.

#### Decline in Consumption

Comparing milk consumption figures in these three areas, for October, 1948, with those of October, 1947, a decline is shown at each place. A decrease of one per cent is shown for Lethbridge. In Medicine Hat where in August and September figures were on the increase, October, 1948, statistics showed a drop of five per cent over the previous month of September and compared to October, 1947, a decline of 3.2 per cent.

In the Crows Nest Pass area where a month ago a two cent

### Nurses' Home Won't Be Built At Present Time

Estimated Cost of \$50,000 Considered Too Excessive by Municipal Hospital Board

The Municipal Hospital Board has decided to forego the construction of a Nurses' Home for the present. This decision was made at a meeting last Thursday evening when blue prints on the home were submitted along with the estimated cost of \$50,000.

The Home was to accommodate a minimum of 26 persons, the matron having her own private room while the rest of the nursing staff doubled up.

The building was to be only of frame construction with brick veneer to harmonize with the hospital proper. The estimated cost was considered excessive for a building of this type.

As a result of this decision further consideration will have to be given towards housing the bus.

Application has been made without success by a local businessman to be given the power of a Notary Public. Since the services of a N.P. is needed council will use its influence with the Attorney General's department to have some local citizen empowered to serve as a Notary Public.

### RELATIVE OF W. L. RIPPON DIES IN ONTARIO

Mrs. Lorraine Brown has received word from her Dad, W. L. Rippon, of Victoria, that Douglas Robertson, husband of his niece, the former Miss Eileen Rippon, had been killed in an accident at Little Longiac, Ontario. Deceased was a bridegroom on ten weeks.

The young widow is the daughter of Mr. Rippon's brother, N. E. Rippon, with whom they stayed when "Rip" retired from the service of the Canadian Bank of Commerce on pension and visited in eastern Canada.

The death of the young man occurred last Friday.

### School Board Met Conciliator H. Bendickson Sunday; New Wage Schedule Turned Down By Board

Blairmore Board And E. G. Ansley, A.T.A. Secretary, Failed to Reach Agreement And Dispute Expected to Go Before Arbitration Board

Mr. H. E. Bendickson, conciliator in the dispute between the Coleman teachers and the trustees over salaries, met the school board on Sunday morning. Board member Wilkie was absent. Present in addition to the trustees and Mr. Bendickson, were Mr. E. Ansley, secretary of the Alberta Teachers' Association, and Mr. James Cousins, chairman of the teachers' salary committee.

The teachers had originally asked for a \$600 salary boost across the board and the Board had countered with a \$150 boost across the board.

Conciliator Bendickson opened the discussions by presenting Board with a new salary schedule which if it had been adopted would have given each teacher a boost of \$450.00. The schedule was turned down by the Board and it put forth its original offer of \$150.

The conciliator refused to consider the offer.

More debate resulted with the Board boosting its ante to \$200. Again the conciliator refused the offer. The Board raised its offer to \$300 across the board and refused to budge from this figure. The conciliator then discarded his new schedule and agreed to the \$300 raise. The salary schedule with the exception of the \$300 wage boost for each teacher will be unchanged in other phases of the contract.

Blairmore Board countered with a \$150 across the board raise retroactive to April last or a \$300 across the board retroactive to last September.

This offer was turned down by Mr. Ansley and the Blairmore teachers.

It was stated during the discussions that what agreement was reached with Coleman did not enter into the negotiations with the Blairmore Board and teachers.

Blairmore Board refused to increase their offer and the teachers' representatives refused to accept the offer with the result that it is quite likely that the dispute will now go before a Board of Arbitration.

### Citizenship Ceremony Here On December 9

Board Grants School Accommodation to Six Italians Desiring to Take Night Classes in English.

A regular meeting of the Coleman school board was held on Wednesday, Nov. 25. Present Chairman G. Evans, Trustees Bomber and Cornett.

Intermediate teacher E. Mascherini reported to the Board that six citizens of Italian birth were anxious to attend night classes in English, have him as their teacher and have the use of a school room for the classes. Board will co-operate by permitting use of the classroom.

Several insurance policies were renewed.

Correspondence was received from Charles W. Mason, Clerk of the Court, informing the Board that a citizenship ceremony is to be held in Coleman on Thursday, Dec. 17.

Court mats are to be placed in the entrances, hallways and porches of all the Coleman schools. Panic bolts are also to be placed on all entrance doors in the schools.

The ceremony will take place in the high school auditorium and school students will be present from local and other

contents of the high school is to be made and insuring covering same is to be placed with Wilson Insurance Agencies.

### Notice of Completion of Voters' List

Notice is hereby given under the provisions of section 108 of The Town and Village Act that the Voters' List of The Town of Coleman has been prepared and that a copy of the said Voters' List is posted in the office of the secretary-treasurer.

The posted list is open to inspection during business hours.

Any qualified elector may make application for the correction of any error or omission in the said voters' list by serving notice upon the secretary-treasurer in writing on or before the first day of December, 1948.

Dated at Coleman this 19th day of November, 1948.

G. LEES, Secretary-Treasurer.

**JAP WAR CRIMINALS HANG**—An eleven-power court in Tokyo doomed Japanese war criminals to hang. Hideki Tojo, premier of Japan, and six of his leaders died and 36 others were given life imprisonment. Fifteen war criminals were hanged on gallows like this in Germany during the past month. In Tokyo, similar gallows carried out the sentences.—S.N.S. photo.

**TWO INJURED WHEN CAR LEFT THE HIGHWAY**—A modest auto, driven by L.A.C. William Kensett, 28, Toronto, swerved off the road and plunged down a 75-foot embankment while a friend, L.A.C. Gordon Fatum, was reaching over to hand him a cigarette. The accident took place along the Queen Elizabeth Way, west of Oakville, Ont. Kensett suffered a broken neck and internal injuries in the crash. Fatum, who was only slightly injured in the crash, climbed back up the embankment and flagged a passing motorist to get aid for his friend. Above is the wrecked car seen after the accident.—S.N.S. photo.

## Sylvian DeKleyn Purchases The Friendly Store

The Friendly Store came under new management last Saturday morning when Mr. Sylvian DeKleyn, well known local citizen, purchased the business from Mr. Joe Kapalka.

This is Mr. DeKleyn's first venture into an established business and he will have Mr. Kapalka remain with him until the end of the year in order that he might become better acquainted with its administration.

Mr. DeKleyn first came to Coleman with his parents in 1924, gaining employment at McGillivray until 1943 when he bought two trucks and went into hauling coal for International.

In 1947 he and Mrs. DeKleyn left Coleman for Belgium where they remained until a month ago when they returned to Coleman.

Mr. Joe Kapalka, proprietor of The Friendly Store, has had his business for sale for some time and Mr. DeKleyn approached him on the subject of selling. A sale was made and the store's ownership changed hands on Saturday.

The new owner will handle the meat department and desires to employ a local girl with grocery experience. Mr. Lawrence Rosa, truck driver with Mr. Kapalka, will remain on the staff. The Friendly Store name will be continued and Mr. DeKleyn bids his many friends to pay a call to his new store.

Mr. Joe Kapalka has no definite plans for the future. He and his family will remain at their west Coleman residence until summer when they plan to look around. In the meantime Joe states he owes himself a well earned rest and he plans to relax and take life easy for a few months.

## Annuitants Live Longer

People who own annuities or have converted their life insurance into lifetime income make up the healthiest and longest-lived group of people served by the life insurance business, according to the Canadian Life Insurance Officers Association.

At age 65, actuaries estimate men owning annuities can expect to live 15 years on the average and women 18 years. Men as a whole at the age of 65 can expect to live nearly 13 years on the average, and women about 14 years.

It is not just the guaranteed income and peace of mind which makes annuitants live longer, say the actuaries. People who buy annuities are likely to be healthy and vigorous to begin with; if they weren't, they wouldn't ordinarily be interested in buying an annuity. They usually have every expectation of leading long and healthy lives. The number of such people has been growing yearly; at the end of 1947, upwards of 400,000 individual annuity contracts were owned by Canadians—most of whom are persons of modest means.

## Bill Graham Wins Five Months Elgen Course

Will Take Advance Course  
In Watch Repairing at Elgen Watch Factory Near  
Chicago; Plans on Leaving  
Coleman Late This Month.

Perseverance and natural ability have won for William "Bill" Graham a five months course at the Elgen Watch factory at Elgen, Illinois, forty miles outside of Chicago. The honor has only been awarded to three other Alberta men in the past.

Bill entered the employ of Chalmers' Jewellery store two years ago this month, a few days after Mr. Chalmers opened his new store premises. He took his training under the D.V.A. and the award he has just received is the result of the reports sent to the D.V.A. by Mr. Chalmers and the reports garnered by D.V.A. inspectors from periodical visits made here. The Elgen Company has written Mr. Graham regarding the award and have asked him to be ready to report on January 2 at their factory at Elgen.

Last week Mr. Graham travelled to Calgary to interview the D.V.A. office regarding the award.

The award will give Bill five

months of advanced training in watch repairs. He will be taken through the factory and shown every piece of equipment pertaining to the construction of a watch and the machinery used.

He plans on leaving, if all goes well, late this month in order to report to the Elgen people on January 2. Mrs. Graham and baby will remain here during his absence. . . . V

### Resistance Movement Needed to Save Canada Says Ryerson

From the address of Stanley Ryerson, L.P.P. national organization secretary, in Coleman Nov. 24, and Blairmore Nov. 23.

Only a united people's movement, headed by labor, can offer effective resistance to the threat of a new world war. The first step that must be taken by those who would defend Canada's safety and world peace, is to answer the new version of the Hitlerite Big Lie: the false claim that Russia, which lost fifteen million dead in the war just ended, and had 70,000 towns and villages wiped out wants and is promoting war; and that big business America, whose investment bankers made \$87 billion in wartime profits, is an innocent dove of peace, bearing an olive branch from which dangles—the atom bomb!

The threat to peace comes, not from the Socialist country, but from Wall Street, choking in profit, grasping for markets and areas for expanded investment—from the new imperialism of the United States which has begun to take over Goering's formulas of "Guns instead of Butter", and Hitler's insane policy of the "crusade against Communism". These are policies, not of strength but desperation. They are the fruits of a profit-system in decay, at the end of its rope.

The job of labor and the friends of peace is to resist the union-smashing drive, which is part of the militarization program of Wall Street and its Canadian stooges, to defeat the war policies of St. Laurent and Drew, the spokesmen of American war parties within Canada; to fight for higher wages against the profiteering war-mongers of big business.

Condemnation of the shipment by Canada of war materials to the gangster Chiang Kai Shek—and of Ottawa's armaments budget of a million dollars a day for war: this is the job of those who stand for Canada, democracy and peace! . . . V

### Dan Daly President Of Canadian Legion

W. A. Fraser Elected Vice-President; To Vote on Thirteen Man Executive December 12.

Dan Daly and W. A. Fraser were elected by acclamation to the respective positions of president and vice-president of the Coleman branch of the Canadian Legion.

Nominations of a new slate of officers two weeks ago saw the two above positions filled by acclamation and also saw fifteen members seek office to a thirteen man executive.

Elections will be held on Sunday, Dec. 12. Once the new executive has been elected it will choose its own secretary. Jim Drew has held this office during the past several months having succeeded to the position which had been vacated by W. S. Purvis.

Christmas tournaments are starting and names are being taken in the crib, domino and dart tournaments. It is also expected that the wheel might also spin to give holders of lucky numbers turkeys for Christmas. The prize in all tournaments will be turkeys.

Secretary Drew advises that all persons wishing to take part in the contests should enter now as "time's awastin'."

## OUR COMPLETE SHORT STORY

## COULD YOU REMEMBER?

By Matthew F. Christopher

She Had Never Been Concerned About Him In School. Or Had She?

HE WAS famous now, and he would not remember. If he did remember, he would pretend he didn't. He wasn't only Freddie Hampton of grade-school days, who used to sit behind her in classroom and run his fingers through her hair; and led her about her upturned nose, and the empty spot in her mouth where a tooth was missing which you could see every time she laughed or smiled. He wasn't only that Freddie Hampton. He was the famous radio actor who had roles in three different shows.

It was like a fantastic dream, Cathy thought. She cherished the memory of those wonderful days. Perhaps it hadn't been so wonderful then, because she could remember, quite vividly, that Freddie's taunts had gotten on her nerves. "Pest!" She had called him that many times. She used to get so mad at him...

Waiting before the radio, she laughed quietly to herself. Yes, it was funny to look back; like gazing through Grandma's and Grandpa's family albums. Why should Freddie Hampton do that to her? She had never been concerned about him in school. Or had she?

He was in town now, visiting his uncle. The senior class girls had really made a hub about him.

"Boy, is he cute!" Geraldine Arnold had commented, with eyes that rolled around big and round and well-beautiful. Geraldine had finished with a whistle.

Mary Carmel had suddenly become all-a-dither. Mary had only lived here two years, and she had not known Freddie before. Lots of girls had heard him many times on his radio programs. "Ooo-h!" she had cried happily. "Did he speak to you, Geraldine?"

"Why, of course! He used to sit right across from me in school, didn't he?" As if Mary should have known.

He sat across from you, all right, Cathy thought; but I was the one who had sat directly in front of him. Whose hair he used to pull and whose nose he used to pinch first. He never talked to me, Geraldine?"

She could have said so much then, with all the girls around, but she hadn't. She had hardly said a word. She didn't think she had even said.

She gazed across at the Saturday afternoon sunshine that sneaked in a thin, golden veil around the chintz curtains into the room, as if to eavesdrop on her thoughts. From the kitchen came the soft sound of her mother's baking the angel food cake for Sunday's dinner. Suddenly, she was embittered with the intense loneliness, and her nerves trembled for a change. Not even the sun could help from the radio, which generally helped to cure the blues, seemed to possess that certain rare quality. The soothing warmth that almost invariably worked when she felt as she did today. She wanted to go out.

"Mother," she said softly, but loud enough for her mother to hear. "I'm going out awhile."

"All right, dear," her mother answered.

Cathy left the radio playing. She

EVEN THE ROYAL "DOG" WAS UNDER A SPELL—There was only one topic of conversation in England throughout the British Empire, and that was the birth of a son to Princess Elizabeth and the Duke of Edinburgh. Every scrap of information about the royal blessed event made headlines. Most concrete scrap of the day was the official bulletin issued by the royal obstetrician, W. Gillatt, and posted outside Buckingham Palace. The good "dog" seems to have been as excited as any other Briton for his spelling is a little off the beam. ## Manitoba Still To Retain One Licence Plate

Two Canadian provinces — Manitoba and Quebec will retain the wartime single licence plate for automobiles until 1948. British Columbia, under vehicles will sport deep yellow license plates with black lettering after March 1 next year. The colors are just a little different from any chosen in North America.

Manitoba's plates will be nearest, with black on ordinary yellow, and will share the colors with six states of the U.S.

Saskatchewan will issue two plates with coloring of deep maroon background and white letters.

Texas has gone everyone just a bit better. The cars will be tagged with gold plates bearing black letters.

## THAT FOR SURE

YORKTON, Sask.—A case in court here centred around the ownership of a calf.

"Whose heifer was it?" the defense lawyer asked.

"The cow's," replied the witness.

## SAFEGUARD DEER

NAKANO, B.C.—Two fawns found in the woods are to spend the rest of their lives at a cougar-dog training school here. The dogs will be taught to ignore them, thus when seeing cougar they will ignore deer.

They must have heard, because he turned around them, and a smile came over his face. A smile that brightened his brown eyes and put color in his cheeks, that seemed to lift the hair life into him.

"Cathy!" he exclaimed softly, and stood up.

She seemed to be frozen to the lawn for a moment; but quickly and toots that held her motioned away and she broke toward him. Tears burned her eyes. But, oh, so happy tears!

## Canada's Tourist Trade To Increase Through Movies

VANCOUVER—Canada is due for increased tourist publicity through Hollywood movies.

R. H. Baker, manager of Vancouver's Tourism Association, told a meeting of the tourist group in Terminal City Club that the Federal Government is already in negotiation with the film industry toward this end.

The movie industry has agreed to give Canada increased presentation in news reels shown in the United States. It is to be the Canadian news story to be continued in each week's American release.

Cucumbers originally came from southern Asia, and have been grown for more than 4,000 years.

## Production On The Increase In Southern Alberta By Irrigation

By FORBES RHUDE, CPI

LETHBRIDGE, Alta.—Sugar and steaks are contrasting products of Lethbridge, fast-growing city of the south of Alberta, and if you don't think they have much in common, read on. For that juicy steak you'll eat some time next year, right now is on the hoof in the Lethbridge feed yards, munching away on the pulp of sugar beets, after the sugar has been extracted.

It is an example of the rounded-out economy which is abounding.

Not so long ago, in the 80s, Lethbridge was founded on coal—and it still is around here in abundance. Also came cattle, because the buffalo had gone and the Indians had to be fed. Then hard wheat, still the weathiest crop. But relatively recently came irrigation on a large scale, and that is the word in Lethbridge today.

Irrigation made possible the sugar beet and one set of sugar canes that were the birth of a son to Princess Elizabeth and the Duke of Edinburgh.

Every scrap of information about the royal blessed event made headlines. Most concrete scrap of the day was the official bulletin issued by the royal obstetrician, W. Gillatt, and posted outside Buckingham Palace. The good "dog" seems to have been as excited as any other Briton for his spelling is a little off the beam. Note the word "satisfactory" in the bulletin. S.N.S. photo.

It is also bringing more population per square mile—raising it gradually from three persons to 17, a stable population which should be a good economic factor in depression, dry year or wet.

There's oil around here too, not a great deal in production yet, but sharing Alberta's general optimism in this direction.

**Irrigation**

Take this matter of irrigation and forget for the moment the big wheat farms of this area which produced 42,000,000 bushels of wheat worth \$75,000,000 this year, and the large cattle ranches as big as 65,000 acres.

For irrigation possible the smaller farms of, say, 160 acres, they plant about 25 acres to sugar beets from which a farmer today can earn \$3000 to \$4000 a year. It will make possible 3,000 to 4,000 farms where now there are only 500. Altogether about 2,500,000 acres in southern Alberta may be brought in, and this is part of a larger western picture which envisages similar developments in central and southern Saskatchewan.

**Sugar Beet Plants**

It is fascinating to the sugar plants at Picture Butte or Raymond, or later on, the sugar beet building at Taber, and the beets come in tall convoys, get steeped and

then are processed at the mills.

**PIMPLES AND BLACKHEADS**

Quickly helps to clear up these blemishes leaving skin soft and smooth. Proven over 50 years.

#### Boston Bruins Heaviest Team In N.H.L.

For the third straight season, Boston Bruins have had the heaviest team in the N.H.L. The average weight of the 17 players on the Boston club this season is 175 pounds. Detroit Red Wings and Toronto Maple Leafs are close behind the Bruins in poundage with an average of 175.5 and 176.4 pounds respectively.

Average weight of the 18 players on the New York Rangers roster is an even 174 pounds. Chicago Black Hawks have a 172.2 average while Montreal Canadiens are the lightest team in the League with an average of 175.7 pounds per player.

Top weight for an individual player in the National League this season is 200 pounds and there are only five players in the loop at that figure. They are Woody Dumart and Jack Crawford of Boston, Butch Bouchard of Canadiens, Harry Watson of Toronto and Doug McCraig of Chicago. Buddy O'Connor of Rangers is still the lightest player in the circuit at 162 pounds.

Last year Boston had an average of 180 pounds while two years ago the average was 179 pounds. A year ago Toronto had an average weight per player of 176 pounds while in 1946-47 the Leafs averaged 177 pounds per player. Detroit, who are the second heaviest squad in the League this campaign, were the second lightest team last year while in '46-47 they were just back of Boston with an average of 178 pounds per player.

Canaucks were the lightest crew in the N.H.L. in 1946-47 with an overall average of 150 pounds but last year they were the third heaviest with an average of 175. Chicago Black Hawks, second lightest club this season, were the lightest last season at 164 pounds per man. Rangers had an average of 175 in 1946-47, and 171 in 1947-48.

### KITCHEN MEDITATIONS

#### Twenty Below!

By JANE DALE

Wrap yourself up warm Johnny. Mind, it is twenty below. There is ice on the water trough. And diamonds on the snow.

Don't stick out your tongue, Johnny. Against the cold air it'll freeze. Remember, it's right frosty now. Don't cry when it's too late.

You can hear the late train whistle. Though it's six miles away. Just like it's coming in the lane; The air is sharp today.

Mind, now don't get cold, Johnny. And play out in the sun. Even when it's twenty below. A child must have some fun!"

### UNEMPLOYMENT IN B.C. REACHING HIGH RECORD

VANCOUVER.—William Hograbin, regional superintendent of the National Employment Service, said unemployment in British Columbia is developing into a chronic situation.

He estimated that by the end of the year the number of unemployed in the province would rise from the present 22,000 to 35,000, highest in history. Today, there are only 1,900 jobs available, he added.

Seasonal layoffs, coupled with an influx of 400 persons each week to the province, can be blamed for the rise," he said.

### THIS IS A JOB THAT YOU CAN DO

By Edward L. Ross, Medical Director, Sanatorium Board Of Manitoba

If you had read in the papers that a large number of people had lost their lives in a train wreck, or in a fire, or that a mine had caved in, entombing a whole shift of miners, you would quite naturally think this a shocking disaster. You would be even more concerned if you learned that these catastrophes had been prevented. This social conscience sensitiveness is a fine and normal attribute but did you ever ask yourself this question ... does it disturb me as much to learn that more than five thousand persons in Canada died of tuberculosis last year, 200 of these in Manitoba.

You tuberculosis as much or more than any other disease is preventable. If all the cases of tuberculosis could be found and treated the disease might be eliminated within the lifetime of the rising generation. Tuberculosis presents a challenge which we have so far met only in part. The toll taken by this disease has been reduced as much as 75 per cent, since the turn of the century and it is possible to wipe out the other 25 per cent as well.

Each year the campaign, particularly Sanatorium Board offers you an opportunity to come in on the campaign against tuberculosis when you are asked to buy Christmas Seals. In Manitoba the money raised by the sale of Christmas Seals is, and always has been, spent within the Province for the prevention of tuberculosis, through the discovery of spreaders of infection and the finding of new cases early when treatment provides an excellent chance of recovery.

In Manitoba during the past two years 500,000 people have been x-rayed by mass x-ray surveys and free tuberculosis clinics. The whole Province has been covered and we are well on our way to second round the country and gradually increased programs to discover new cases and seek out unknown sources of infection among apparently well people is provided by fully equipped and modern mobile x-ray units. It is financed by the Christmas Seal sale and the fund-raising activities of the Associated Canadian Travellers. Not one cent is spent for sanatorium treatment which is free to the individual requiring it.

Tuberculosis is a communicable disease which can be kept from spreading by treating in sanatoriums all those who have it and infections for. The prevention and control of prevention and cure is, of course, that the disease be discovered in its early stages. Tuberculosis in this early stage and often even when more advanced does not produce symptoms—so the only sure way of detecting the disease in a person is by x-ray and, in a community by mass x-ray surveys.

Great strides have been made in controlling tuberculosis. It was the first cause of death. It is now seventh. This is a considerable victory yet it is not enough as it still remains the leading cause of death between the ages of fifteen and forty-five and is the most wasteful disease in life-years. Surely this is a challenge.

There is so much human suffering that is understandable, it is something to know that there are places you can really help. You can be a partner in the campaign against tuberculosis by buying Christmas Seals.

This is a job that you can do.

### Possibility Of Producing Paper From Wheat Straw Investigated

EDMONTON—Possibility of utilizing Alberta's large stocks of surplus wheat straw for paper manufacturing is being investigated by the executive of the United Farmers of Alberta.

Reports received from the National Farm Commodity Council in the United States hint that manufacturers of paper from straw may prove one of the major achievements in the field of chemistry.

### WEDDINGS

GETTMAN — NIMCAN Holy Ghost church was the scene of a very pretty wedding on Saturday Nov. 27, when Rose Nimcan, youngest daughter of Mr. J. Nimcan and the late Mrs. Nimcan, exchanged marriage vows with Joseph Gettman, son of Mr. and Mrs. A. Gettman of Coleman. Father L. Sullivan officiated at the ceremony.

Entering the church on the arm of her father to the strains of the wedding march, the bride looked charming in a gown of white satin, with flowered net veils and lily point sleeves. Her floor length veil was held in place by a sweetheart coronet and she carried a bouquet of red roses. Her only ornament was a gold cross a gift of the groom.

Miss Millie Bubnik was maid of honour and chose a gown of mauve nylon with matching headress. She carried a bouquet of yellow carnations.

The groom was John Caruso of Macleod, brother of the bride. Bridesmaids were Ella Frolak and Anne Tracon, who chose gowns of blue sheer and blue taffeta with matching chapel veils. They carried bouquets of pink carnations. Ushers were George Soroff and Frank Gajdos.

During the ceremony hymns were sung by Margaret McElellan, accompanied by Mrs. Maurer at the organ.

A reception was held at the home of the groom's parents where about 80 guests were present. The house was gaily decorated with colored streamers. The table was centred with a three tiered wedding cake, flanked with bouquets of mums and carnations. The groom's mother received the guests and as hostess chose a black crepe dress with sequin design on the yoke. She wore a corsage of red roses.

Toasts to the bride were proposed by Father Sullivan and John Caruso to which the groom responded.

The young couple left on Sunday on a Honeymoon to be spent in Calgary. For travelling the bride chose a light blue wool, dress with matching accessories and wore a corsage of roses.

Music for the occasion was supplied by M. S. Lesniak and son of Bellevue.

On their return, Mr. and Mrs. Gettman will reside in Coleman where the groom is employed.
